

KATE HUDSON

style for YOUR HAIR

BEST TIPS & TRICKS

beauty editor
TANIA MALONE

✦ Towel dry hair, then distribute mousse throughout. Apply heat protection lotion and section hair into 2cm pieces starting from the nape of your neck.

WE LIKE Kérastase Ciment Thermique, \$38. This heat-activated restructuring milk for weakened hair guards against heat while leaving you with amazingly silky hair.

Sebastian Professional Evokativ Lustfull Curvaceous Volume Mousse, \$36.95, will set the scene for totally touchable curls.

✦ Use a medium-sized round bristle brush to blow-dry each section. Wrap dry hair around heated rollers and spray with hairspray. Allow to cool before removing rollers. Alternatively, use heated curling tongs.

WE LIKE VS Sassoon Ceramic Instant Heat Tong, \$29.95 (25mm) and \$34.95 (38mm) – with its fast heating system you can create your curl in 60 seconds.

✦ Place a few curls around your face loosely before spritzing in place with a flexible hold hairspray – you want your curls to feel free and flirty, not solid.

WE LIKE VO5 Firm Hold Hairspray, \$5.95 – this will hold your style without weighing it down. It brushes out easily and leaves no sticky residue.

KATE'S Curl POWER

Romantic tresses like Kate's are on a roll – make some waves of your own in just a few easy steps

TOP TIP

If you have a small forehead, avoid a block fringe as it will make your face look fuller. The most flattering fringes are weighty and soft.
